

Tuesday, June 25 1897.

THE PRESIDENT'S TOUR.

Mr. Johnson has every reason to be gratified with the reception he has met along the route during his present journey. He has been everywhere greeted with demonstrations of respect for the office which he holds as chief Executive of the nation, and there have been the slightest indications of disapproval. As he entered the railroad station at Worcester, the very first of Massachusetts radicals, they exceeded all others in their demonstrations.

The address of welcome delivered by Gov. Black and other officials was couched in such terms as persons of culture know how to employ. While devoid of flattery allusions to his administration or pretended approval of his course, they were also free from discreditable references to political matters calculated to draw from him political speeches in reply or to excite in his mind any unpleasant feelings.

The President's addresses in reply were also free, so far as respects, from offensive expressions or allusions to the matters in difference between him and Massachusetts and all New England, as well; and he has expressed himself in terms indicative of his high appreciation of the cordial and respectful reception which New England men now so well how to accord to one occupying his exalted position. It is plain that both Mr. Johnson and Secretary Seward were a little at a loss how to address a New England audience, and doubtful of the reception their remarks might meet; and their addresses were no word of that their hearers were not depressed, and the hearts of New Englanders and their sentiments could take no offense.

The President on both sides augurs well for the success and agreeableness of the tour. The President is not on a political journey, and he desires to experience a relief in being permitted to throw off for a season the cares of politics and thoughts of political agitation. In this way since can his visit pass with unalloyed pleasure both to himself and the people. All want him to honor him as the people's guest and as President of the United States, but bitter men will attend the conversation of his tour into a partisan demonstration.

The Celebration at Boston.

This affair passed off yesterday, with great pomp and enthusiasm. The Masonic brethren, of various grades, were present in great numbers, and an enormous procession marched on its "winding way" through the hot and crowded streets, escorted by numerous contingents of Knights Templars in their elegant and showy uniforms, and attended by fifty bands of music. No such display was ever before made by the thousands in this country. The services of decoration at the new Masonic building were in keeping with the occasion and the noble structure reported for the "work" of the several degrees.

At eight o'clock the Grand Lodge of Massachusetts met at Tremont Hall in Summer street. A committee consisting of three Past Masters of the Grand Lodge awaited upon the President at the Tremont House, and proceeded with him to Summer street, where, without formalities, he was introduced to the Grand Master, C. C. Dwyer, when the line of procession was formed, the President and officers of the Grand Lodge in carriages. The Boston contingent of Knights Templars performed the escort duty, turning out in full ranks, and making a most creditable appearance.

After a short detour the procession reached the new Masonic Temple, and the President was escorted to the room of the Grand Master. The Grand Lodge was then opened, and the President was escorted to the Grand Master's room, where he was seated by the Grand Master, on the right. The dedicatory ceremony then took place, and at the conclusion the President addressed the Lodge in a few words. After the formal services of dedication and the march of the procession, the address at the Masonic Hall consisted of an address by Rev. Wm. S. Steadley, Past Grand Chaplain of the Grand Lodge of Massachusetts, which occupied all of the time of an hour in its delivery. The original "Doom" was written for the occasion by Liberator.

After the services at the Masonic Hall, the President dined with the Grand Lodge in the Egyptian Hall, which is one of the principal halls of the new Masonic Temple. Governor Rusk, Mayor N. Rogers, President Board of the Senate, the Speaker of the House, Commodore Rodgers, and a few other celebrities were present.

Gov. Sheridan has telegraphed to Gen. Grant, desiring to extend the time for re-generation in Louisiana, in compliance with the President's command not to interfere on the ground that the latter had been completely and he did not feel like keeping up the war-time boards to interfere with the election. He characterizes the Attorney General's opinion as opening a broad road for perfidy and fraud to travel on, and remarks upon the President's bitter intention to the reconstruction law. If after this the time is to be extended, he desires to be notified and will obey. He would do it once, but the President's telegram was conditional.

BLOODY WORK BY INDIANS IN KANSAS.

A private letter from Fort Wallace, Kansas, dated 9th inst., gives the following particulars of the massacre of four men: On the 3d inst., two men named Farou of New York, and Thompson of Colorado, left Goose Creek ranch to go to Pond Creek ranch a distance of fourteen miles, the last named ranch being three miles from Fort Wallace, where they belonged. Being absent much longer than was anticipated, men were detailed to search for them, and their dead and horribly mangled bodies were found lying in a small ravine—both having been scalped, and the bodies perforated with bullets and cut and hacked in a most fearful manner. Both men were armed with Henric rifles and Colt's revolvers, and appearances indicated that they were attacked by some fifteen or twenty savages, and that a most desperate fight must have occurred before they were overpowered.

The same letter informs us that on the 6th inst., two miners who had made money and were on their way to their homes at the East met a similar fate in the immediate vicinity of the same fatal spot. The writer concludes as follows:

"Here we are, stationed at Fort Wallace, with about 120 men, and we are expected to furnish men for the coaches, three for each, going both East and West every twenty-four hours—besides from six to eight for the ranches, and guard the Fort as well. To do this at least 300 men are wanted, as the duties of the men are such that some have not been in bed for five consecutive nights—one night being on guard, another in the saddle, the next on the coaches, and so along; and this is the way duty is performed at Fort Wallace. But this is no fault of the officer commanding the post, who is a good soldier and able officer, and I may say a perfect gentleman. Is not this enough to exhaust the blood of any white man, and ought it not to stir up the government?"

A TERRIBLE MOUND OF WARFARE.—A Massachusetts chemist has invented a kind of Greek fire by which he thinks he can successfully oppose the needle gun. In a letter to the Progress of Lyons, he describes this composition as follows:

"To give an idea of the efficiency of my discovery, I declare and am ready to prove that I can, at a distance of one thousand meters, envelop an army of one hundred thousand men in a sea of flame within less than five minutes. If a town has to be taken by assault I have no need of a Hotchkiss, as I can set it on fire in very nearly the same period. In a naval battle I would run into the enemy, and in fifteen seconds cover all the deck of the vessel with a current of flame which would burn the rigging, penetrate the decks, and instantaneously scald all the crew. In an attack on a sea port, I could burn the town and arsenal within range with the rapidity of lightning. With such weapons no war is possible, as neither victors nor vanquished would return from the field of battle. As to the fortress of Luxembourg, the subject of dispute at the present moment, I undertake to rid it of its garrison in a quarter of an hour."

The congressional executive committee has received telegraphic responses to its circulars of last Thursday from over thirty members of Congress, every one of whom says he will be present for a summer session of Congress. Several of them express hopes that no general legislation may be attempted, but that the reconstruction act will be made plain and explicit that the President can neither misconstrue nor evade it, and that an adjournment may then take place to about the first of October.

The Herald's correspondence from Rio Janeiro of May 24th says over a thousand emigrants arrived there, half of whom are from the United States. The cholera had broken out among the Portuguese, who were throwing the bodies of those who died of the disease into the river. This had caused a re-appearance of the disease in several towns in the vicinity. The disease had almost completely disappeared from the camp of the allies.

Heavy and incessant rains have been doing much damage to the wheat, cotton, and other crops, in the South, especially in Georgia and the Carolinas. The farmers, whose hopes were a short time ago very lively, are now greatly depressed.

It is learned that the Department of State has information, from Commission Beckwith, that of the 421 United States exhibitors at Paris there have been awards in favor of 202. Among these have been awarded grand prizes, 17 gold, 62 silver, and 103 bronze medals. Seventy-nine American exhibitors were honorably mentioned.

The New London Star says a rumor has been in circulation in that city for the past two days to the effect that Capt. Elias Buchanan and wife, and Riley Sweet, all of New London, who were supposed to have been lost at sea many years ago, are still living, prisoners at one of the Keegan Islands. Capt. Buchanan sailed from San Francisco some eleven or twelve years since, bound for Australia, accompanied by his wife. The vessel in which he sailed, a small frigate and schooner, called the Sea Breeze, was never heard from, and it was believed that she went down at sea, and that all on board perished. The report is said to come from some men who were in captivity with Captain B., and who had arrived at New York.

A Gift Enterprise Relief Association, advertised as a grand scheme for the benefit of Southern orphans, and by which scheme large amounts of money were raised, came to grief in Baltimore last week in a manner entirely unsatisfactory to the donors and in a way anything but beneficial to Southern orphan children. A general error over the funds that had been collected and the testimony of Mrs. J. H. Hammond, President of the Association, the Grand Jury found in favor of the Association, the Grand Jury found in favor of the Association, the Grand Jury found in favor of the Association. It is stated that only 30,000 out of 80,000 tickets have been sold and that the valuable prizes announced have been retired from the scheme.

This ram Stonewall which has been sold to the Japanese Government, is nearly ready for her departure. Her repairs will be completed in a few weeks, and Commander Brown of the Navy has been detailed to take her to Japan.

Three hundred and sixty tons of meat are daily consumed in New York city alone.

Twenty steamers sailed from New York yesterday for various parts of the world.

The Police attempted arrest of the Ozer is still in prison. He makes no disclosure and persists in the denial that he has accomplished.

A proposition has been introduced in the New York Constitutional Convention to give the right of suffrage to all male citizens over eighteen years of age.

In the new office of the Philadelphia Ledger a lady will have charge of receiving all advertisements brought by women.

Two Albany papers are to receive twenty thousand dollars for reporting the proceedings of the convention to amend the Constitution.

Gen. Sheridan reports to the War Department that things in Louisiana are going on well, and every day gives assurance that the removal of Wells, Monroe and Abel was a wise step.

It is a curious fact that all the fighting nations of ancient times have died out. On the other hand, the Chinese, a peaceful people, now number about four hundred million.

A proposition is before the New York State convention to disfranchise persons who are habitual drunkards, persons who sell their votes, and persons whose moral character, in some other respects, is not what it should be.

A number of Californians are organizing a company with \$500,000 capital to buy up good lands to sell again to actual settlers, at long credits and low interest, together with seed, farm implements and live stock; manufacturers will also be encouraged.

The twenty per cent. voted to the government clerks and employees at the last session of Congress, expires with the end of this month. The clerks think the reasons for its continuance are the same as those for the original grant, and have appointed a committee to urge the matter before Congress at the coming session.

General Butler has been relieved as President of the National Asylum for Disabled Soldiers. The Comptroller has decided that by accepting the office of member of Congress, General Butler vacated the office of manager, and consequently of President of the Asylum—the two offices being by law incompatible.

Immense damage to the wheat and other crops in Georgia and the Carolinas, by heavy and continued rains, is reported. Heavy freshets have taken place in the rivers, and a large portion of the low lands are overflowed. The cotton crop along the seaboard has been materially injured.

The circulars to commanders of Military Districts, agreed on in Cabinet and forwarded through the Adjutant General, is not in the nature of a temporary order, but merely submit it to them for their information so that their action may be uniform. In view of the change in the law incident to the meeting of Congress, it is thought at General Grant's headquarters that the military officers will do nothing under this circular.

PERUVIAN SYRUP. A PROTECTED SOLUTION OF THE PROTOXIDE OF IRON, supplies the blood with its LIFE ELEMENT, IRON, giving strength, vigor and new life to the whole system.

If the thousands who are suffering from Dyspepsia, indigestion, etc., would test the virtues of the PERUVIAN SYRUP, the effect would not only astonish themselves but would please all their friends; for instead of feeling cross, "all gone" and miserable, they would be cheerful, vigorous and active.

A DISTINGUISHED JURIST WRITES TO A FRIEND AS FOLLOWS: I have tried the PERUVIAN SYRUP, and the result fully sustains your prediction. It has made a new man of me, infused into my system new vigor and energy; I am no longer tremulous and debilitated, as when you last saw me, but stronger, healthier, and with larger capacity for labor, mental and physical, than at any time during the last five years.

Thousands have been changed by the use of this remedy from weak, sickly, suffering creatures to strong, healthy, and happy men and women; not a single case has been known to give it credit.

The genuine has "PERUVIAN SYRUP" blown in glass.

A 32 page Pamphlet will be sent free.

GRACES CELEBRATED SALVE.

Anatomy, Mass., Oct. 18, 1888.

Mr. Grace—Dear Sir:—Having been afflicted grievously for several weeks with a severe rheumatism in my right arm, I used several remedies for its eradication without receiving any relief, until I applied your salve which effected a speedy and permanent cure. I therefore feel happy to certify my confidence in its virtues.

Yours very respectfully,

JAMES DEAN.

I certify to the truthfulness of the above statement.

AMERICAN STEAMSHIP CO.

Local Intelligence

The Daily News will be enlarged and otherwise greatly improved within a day or two, and in the meantime we ask the indulgence of both readers and advertisers as our forces are busily employed on the improvements.

Fourth of July.—The committee of arrangements for the celebration of the approaching anniversary of American Independence, have thus far arranged many matters incident to the festivities.

Gen. Van Zandt has accepted the invitation of Orator. Hon. Wm. M. Bowman, an object son of Newport is to return to us for the day with one of his poems, always appreciated, never forgotten. F. W. Tilton, Esq., Superintendent of Public Schools, will read the Declaration of Independence and the Rev. O. H. Malcom has accepted the invitation to act as chaplain of the day. The Sheriff, W. D. Lake, Esq., is in charge of the procession, which is a guaranty of promptness and good order in forming and en route. The Newport Glee Club have the care of the music in the choir. The martial music will be furnished by Prof. Stucke's 51st Artillery Band, of Fort Adams. The trustees of the Second Baptist Church kindly offer their church for the occasion.

On the evening of the day the band will offer their most select music, classical and popular, in one of the Parks of the City.

VANDALISM.—An outrage of a despicable and unusual character, has been perpetrated to a considerable extent in this city, which merits the severest reprehension and a penalty adequate to the crime. In the beautiful cemeteries which are so well cared for and are the centers of so much of the affectionate regard, some of the monuments have been wantonly marred by stones thrown against them, and so disfigured that all their beauty is destroyed. In some instances the sculptured figures have been broken and ruined. The emblems which affection has set up to represent the grief and hope with which loved friends have been deposited in the grave have thus been ruthlessly despoiled, probably by uneducated boys in the vicinity who are permitted to have free access to the cemeteries and use them as their playground. The class of population living near these places have little respect for burial places which they do not regard as sacred, and lessons in decency must be imparted by process of law, if either humanity nor religion is of any influence.

NOT COMING.—A telegram from the Committee of the City Council now in Boston, to His Honor the Mayor, this morning, says the President is not coming to Newport, but will return by way of Hartford. Well, Connecticut is probably a more congenial region for him, just now, than Rhode Island and we do not wonder he prefers to go that way.

IT WILL BE SEEN that the arrival of the President in this city is to be improved by our Providence friends, who propose to greet him here in large numbers, The American Steamboat Company advertise in another column, a time table for the occasion, which our readers will do well to note.

COURT OF JUSTICE.—State versus John H. Olegg. This was a case where George B. Hazard brought a complaint against defendant for threats against his life, and asked that he (defendant) might be put under bonds to keep the peace. Held for advice sent.

See the advertisement of a sale of horses.

The Peak family, a favorite troupe, are to give their unique performances this week.

An organization of the "Grand Army of the Republic" was established in Providence on Friday. We are informed that it is in contemplation to institute a branch of the Association in this city.

The Old Colony and Newport Railroad Company has declared a dividend of \$8 per share.

News Miscellaneous.

Six Presidents have made formal visits to Boston: viz, Washington, Jackson, Tyler, Polk, Fillmore and Johnson. Three of these were Vice Presidents called to the President's office by the death of the President: viz, Tyler, Fillmore and Johnson.

The "R. E. Lee Social Club of Manchester," Va., composed of the first young men of that place, will celebrate the coming anniversary of the independence of the United States by a trip down James river in the steamer Robert E. Lee.

A Washington dispatch states that Secretary Stanton will tender his resignation if the instructions now being prepared for the commanders of the Southern military districts are sent to them before Congress assemble in July. If they are not issued before Congress goes together, it is stated that he will retain his place.

The amount of tobacco manufactured at Richmond during April and May was about 2,000,000 pounds, and the Government lay upon it amounted to \$500,000.

The Department of State has information from Commissioner Peckwith that of five hundred and twenty four United States exhibitors at Paris there have been awards in favor of two hundred and sixty-two. Among these four have been awarded grand prizes, seventeen gold, sixty two silver and one hundred and three bronze medals. Seventy-nine American exhibitors have been honorably mentioned.

The Legislature of Idaho and E. D. Holbrook, Congressional delegate from that territory, have preferred charges against the judicial competency of Milton Kelly, United States District Judge of Idaho. The case is to be heard before Attorney General Stanberry at Washington, and Mr. Holbrook will conduct the prosecution, and Mr. Kelly the defense.

The corner-stone of the new State Insane Asylum in Middletown, Conn., was laid on the 20th by Gov. English, in presence of numerous delegations from cities of the State and strangers from all remote. The site comprises 150 acres, val-

ued at \$30,000. The buildings will be 114,000 feet and be altogether 765 feet long.

Sunday at Grace Church, Providence. Bishop Clark admitted to the order of deacons Mr. R. W. Clark Jr., a son of Rev. R. W. Clark, who is a brother of the Bishop, and a distinguished clergyman and now pastor of a Dutch Reformed Church in Albany.

The Fourth of July is to be celebrated in Providence with an oration by Rev. H. W. Briggs, approval of the Declaration of Independence by a pupil of the High School and other exercises. There will also be a regatta of rowing and sailing and a tub race, and a promenade concert on the Quave in the evening.

A highway robbery was attempted in North Kingstown, just below Greenwich on Friday. A butcher named Owell, from Apponaug, gave a man a ride in his wagon, and the man soon turned upon him with a pistol and attempted to shoot. The pistol would not go off and the butcher knocked the robber down under the horse's feet and rode off. The robber was afterwards arrested.

The National Division of the Sons of Temperance met at Wilmington, Del., Wednesday last week. Delegates were present from all the States, but one, and from the Overseas, Nova Scotia, New Brunswick and Prince Edward's Island. The reports of the officers show a very encouraging condition of the order. A thorough reorganization has been effected in most of the Southern States. The Most Worshipful Patriarch advocates the carrying of the Temperance question into politics.

The capture of Santa Anna at Saltillo is confirmed. The cause thereof is reported to be a proclamation sent ashore to create a pronunciamento in his favor.

DIED.

In this City, June 24th, Mrs. Elizabeth O. Child of Daniel A. Child and daughter of the late Thomas and Mary Allen aged 47 years and 3 months. Her funeral will take place at a meeting, Wednesday, at 10 o'clock A. M., at her husband's residence, 93 John St. Relatives and friends are invited to attend without further notice.

Boy and Mr. Do You Go—Some of the O. Campbell's 6 or 19 cent cigars, put up at 29 Market Square, Providence.

Both Chronic and Intermittent Rheumatism are being daily cured by MRS. C. H. GARDNER'S RHEUMATISM REMEDY. Sold by all Druggists.

THE GREAT AFFAIRS TO BE DECIDED

ACTION IN THE HUNGARIAN DIET

New York, June 24. A special Berlin dispatch (by a file) of 24th, says it is stated that the Sultan of Turkey has accepted the proposal of the European Powers for an investigation into the affairs of Greece, and that the Joint Commission for that purpose will meet in Constantinople.

Parties who have arrived here from Hungary say France is inclined to buy horses in that country on a large scale.

Prime Minister Bismarck has gone to Potsdam. The Queen of Prussia will arrive at Windsor Castle Tuesday, on a visit to Queen Victoria.

Paris, June 23. In the Lower House of the Hungarian Diet, M. Kossuth, of the party termed "The Left," demanded that the government bring in bills for emancipation of the Jews from their civil and political disabilities; for the reorganization of the military power; for reform of the navigation laws, and in regard to the concordat.

Paris, June 23. The Emperor Napoleon has written a letter to Marshal Vaillant, requesting him to transmit his thanks to the Superior Council of the Exposition Universelle for their address to him in reference to the aid rendered by the Government.

FROM TEXAS.

REVIVAL OF REBELLION FEELING.

UNEARTHING OF IMMENSE VILLAINS.

Galveston, June 22. The opinion of Attorney General Sweeney is already bringing forth fruit. The spirit of revolt is strengthening. Major Harvel, who is removed by General Griffin for rebel privileges, refuses to recognize military authority. The exhorting of an immense villainy has begun here. During the war the rebel Legislature ordered a complete and complete confiscation of all property, real and personal, held by loyal men. The act was enforced with great vigor, and property valued at more than sixty millions of dollars was seized and sold. Judge Davis, just produced by President Johnson, declared more than three thousand sales. The rebel records are imperfect and filled, and do not show the names of purchasers. Immense sums were abstracted by the receivers. The confiscations of General Griffin in Ireland do not equal this in extent and cruelty. General Griffin is charged to probe this huge salient to the last.

Secretary Seward yesterday received the following telegram:

Fifth Avenue Hotel, New York, June 23.

Would the President like to make the trip down the bay on the Franklin, just previous to her departure. If so, what day, answer, as otherwise the ship will sail Wednesday morning. D. H. BARNARD, Admiral.

To which Secretary Seward replied:

Trenton House, Boston, June 24.

My dear Admiral—Do not detain the ship (Go on W. day) as you propose, and as far as special executive orders from here are concerned, stand not on the order of your going. Do not glide too often to the coast, but keep a firm footing on deck, to the end that you may come back from your voyage at the appointed time to renewed health and vigor to receive the additional thanks of your countrymen.

Geo. H. Seward.

REBEL VILLAINS IN NORTH CAROLINA. A Washington dispatch states that a private letter received there from North Carolina, reports the rebels of that state exhibiting such evidence toward Union men that numbers of them are preparing to leave the State for the North. One of the largest steam saw mills in the State, near Wilmington, on Cape Fear river, was burned a few days ago by some of the negroes mentioned. It was owned by Geo. E. A. and Abner.

AGENTS OF MUSIC

Tuesday and Wednesday Evening,

June 25th and 26th.

Prior to their departure for Europe.
